

Issue type	Summary	Description	Expected	Actual	Reporter	Priority	Environment
BUG 01	In Tasks> List > user is unable to drag task to rearrange List	1: go here: https://test.orch.so/i46wZRqOLERw38mh3LJm/tasks/all?info=task-gpGqW5yq1mOzrT9jpLj9 2: To the left of the tasks name click on the six dot icon that appears and drag task [P1_task 1] to bottom of task list	task [P1_task 1] will be relocated to where user drags task	task [P1_task 1] goes directly back to original location and is not relocated	Don Comeaux	medium	macOS Sonoma v14.1.1 Chrome v123.0.6312.87 Firefox v125.0.2
BUG 02	In Tasks> List> user toggles from List to Kanban, the Kanban is blank or only one task appears and doesn't present all tasks in Kanban form.	1: go here: https://test.orch.so/i46wZRqOLERw38mh3LJm/tasks/all?info=task-gpGqW5yq1mOzrT9jpLj9 2: Click the 'Kanban' tab next to 'List' tab	All task would be present in Kanban form under Kanban tab	None or sometimes one task is present when toggling between List and Kanban tabs	Don Comeaux	Medium	macOS Sonoma v14.1.1 Chrome v123.0.6312.87 Firefox v125.0.2 iOS v17.4.1 Chrome v124.0.6367.88
BUG 03	In Tasks> List> Fields > When user checks 'Parent' field in fields dropdown the field doesn't appear in the list	1: go here: https://test.orch.so/i46wZRqOLERw38mh3LJm/tasks/all?info=task-gpGqW5yq1mOzrT9jpLj9 2: Click the 'Fields' tab in top right corner of 'Tasks' 3: Click the blank circle next to 'Parent' field in drop down so it turns green with check mark inside circle 4: Click outside of 'Field' drop down box to minimize	Parent' field would be added to the tasks list	Parent' field was not added to the tasks list	Don Comeaux	Medium	macOS Sonoma v14.1.1 Chrome v123.0.6312.87
BUG 04	In Tasks> List> When user rearranges fields in 'Fields' dropdown they do not rearrange on 'List' to mirror dropdown fields order	1: go here: https://test.orch.so/i46wZRqOLERw38mh3LJm/tasks/all?info=task-gpGqW5yq1mOzrT9jpLj9 2: Click the 'Fields' tab in top right corner of 'Tasks' 3: rearrange the fields in the dropdown by clicking and hold the three dots that appear to the left of the field you want to move. 4: drag selected field up or down the dropdown list to change its location	The fields in the 'List' would mirror the rearranged order of fields from dropdown	The fields in the 'List' do not mirror the rearranged order of fields from dropdown	Don Comeaux	Medium	macOS Sonoma v14.1.1 Chrome v123.0.6312.87 Firefox v125.0.2
BUG 05	In Workspace settings> Auto-Following Settings toggles are not functioning properly	1: go here: https://test.orch.so/i46wZRqOLERw38mh3LJm/settings/space 2: Toggle the 'Auto-Following Settings' on and off next to the workspace, tasks, and projects .	The toggle clicked will be the only toggle that is enabled or disabled	Sometimes all toggles are enabled/ disabled when only one toggle is clicked, sometimes the toggle will not stay enabled or disabled once clicked.	Don Comeaux	Medium	macOS Sonoma v14.1.1 Chrome v123.0.6312.87 Firefox v125.0.2 iOS v17.4.1 Chrome v124.0.6367.88

BUG 06	<p>In Workspace> Tasks> Kanban></p> <p>when user clicks on a kanban task and tried to drag to different positon, the task relocates itself to top left of screen and becomes frozen</p>	<p>1: go here: https://test.orch.so/i46wZRgOLERw38mh3LJm/tasks/all?info=task-q0NDwfL2O7iuvP83sctR&bbs=2</p> <p>2: click on the 'Kanban' tab under [All]</p> <p>3: Click on one of the tasks on the Kanban board and try to drag it to rearrange order.</p>	<p>Kanban task clicked and dragged would be relocated to users prefered location on the Kanban board.</p>	<p>Once user tries to click and drag Kanban task, the task relocates itself to the top left corner of screen and is frozen in that location. User can continue to use application functions but thte Kanban task still remains in top left corner of screen. Only way to fix is to reload page.</p>	Don Comeaux	High	<p>macOS Sonoma v14.1.1 Chrome v123.0.6312.87 Firefox v125.0.2</p>
